## TRILOBULAR SCREWS

**33/A**  
TRILOBULAR

6 rue Nationale 92100 BOULOGNE-BILLANCOURT Tél : 01 46 21 05 32 Fax : 01 46 21 00 76

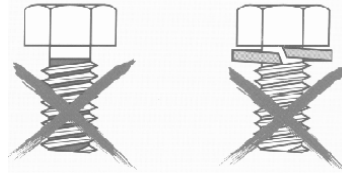

D : diameter of the screw  
C : circumscribed diameter of the screw  
K : measure of lobularity

### What is a trilobular screw?

The trilobular form permits concentrating the effort on tapping on three points on reducing the friction during screwing.

### HIGH HOLDING TO UNSCREWING

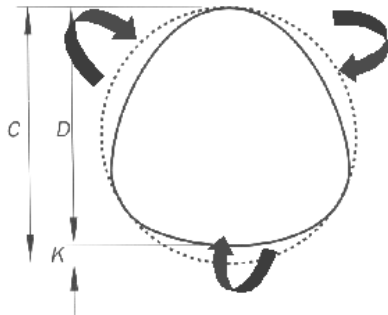

Screw with locking coating

Screw with washers Grower or notched

#### ELIMINATION

- \* Of washers Grower or notched
- \* Of thread-locks (coating or others)

### TORQUE AND PULL-OUT RESISTANCE

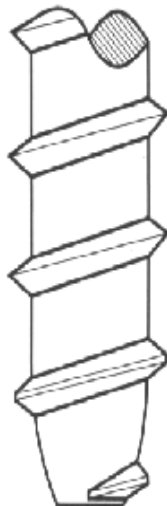

**With plastic memory, the material fills the space between the lobes**

- Resistance to unscrewing (self-locking).
- Resistance to wrenching.

### POLYPLAST TYPE P

Symetrical thread  
45°

### Application :

Good performances in thermoplastics.
